

Dear All

Please find below my very short and last report to you as your District Councillor.

There is nothing to report of particular relevance to Crick. We are just over three weeks into the West Northants Council, and, as I have reported before, the main concentration in the new council is ensuring a smooth transition of routine services, with priority given to Adult and Children's Services. We are also in the pre-election period, which legally restricts some council activities. There is no meeting of the full council until the Annual Meeting after the elections.

I have been your District Councillor for nine years. It is difficult to comprehend, because it has passed so quickly. I have enjoyed my association with Crick; it has been a privilege and a pleasure. I regret that I leave with some unfinished business, but I know the Parish Council will continue to deal with those matters robustly. I thank Parish Councillors, present and past, for all the help and support given to me over the years. I send my very best and warmest wishes for the future to the Parish Council and to the whole village.

Kind regards

Catherine
