

## Highways Report for Parish Council 19<sup>th</sup> November 2018

Two topics of note this month.

First of all the traffic warning signage for the new Green Space 6 footpath exit onto Yelvertoft Road. Our concerns have been passed to Ian Boyes at NCC Highways and he will visit either tomorrow afternoon or Wednesday morning to inspect the signs and make recommendations to improve these.

Regarding parking on Main Road. Ian has today sent out an amended drawing for the double yellow lines, which now include either side of the Cowley meadow exit onto main Road.

Separately, discussions have taken place with Bruno Guarnaccia from Travis Perkins about alternative parking. The Playing Field is an option, subject to PC approval and approval by the Playing Field Committee. I have sounded out the committee and, if the PC gives approval, they are generally supportive, subject to adequate security and safety being provided. I have spoken to Bruno this morning and he is very interested in this option while they try to find a more permanent solution.

I encourage every one to use Street Doctor to report potholes and other issues on our streets.
